***I wish to go to
Disney World®!***

Lucie, 8, leukemia

Thank you to Friends United Beyond All Race for supporting Lucie's wish!

Lucie is the oldest of four children in her family. On Jan. 11, 2018 she was diagnosed with acute lymphoblastic leukemia and began treatment immediately at the BC Children's Hospital in Vancouver. According to her mom, Lucie is super funny, has a great sense of humour, is really smart and loves to read. She's fast, and loves running, knows more about Harry Potter and Star Wars than her parents and is a really good big sister. It was no surprise that Lucie wished to go to the Disney theme parks in Florida. Lucie took in as much as she could on her trip and got to wear all her costumes. She dressed up as Rey from Star Wars, as a Disney princess to meet Belle and as a Hogwarts student to go to The Wizarding World of Harry Potter®. Her mom told us, "Our trip was perfect! It was seriously the most incredible week. We had such an amazing time." Lucie will continue to have treatment until March 2020, and we know the memory of her special wish will help her through it. Thanks again to F.U.B.A.R. for all your support!
